Digital content packages provide over 90,000 multimedia resources ready-to-use and searchable through MediaCAST

By purchasing digital content packages, you allow teachers and students immediate access to the exciting MediaCAST content-integration features. Encoding all of the DVDs and VHS tapes in your library takes time, but by supplementing your growing digital library with already-digital content, you get the best of both worlds. Teachers and students can access tens of thousands of titles immediately. All of the content from the following providers is searchable and can be seamlessly integrated into the MediaCAST system.

CCC! From New Dimension Media is a digital library filled with core curriculum media created specifically for K-12 classrooms. CCC! is comprised of over 3,000 titles with hundreds of new titles added each year. Recent additions to the CCC! library include thirteen episodes of Bill Nye's "Eyes of Nye" and 40 BBC Motion Gallery science and environment titles.

Learn 360 is a content provider who recently upgraded their library to include over 8,300 video titles. Along with video, Learn 360 offers audio files, images and articles. Their video collection includes over 200 video files from National Geographic alone.

Discovery Education *streaming Plus* provides over 9,000 full-length videos segmented into 71,000 content specific clips tied directly to state and national education standards. Other packages from Discovery include: Discovery Education Science, Discovery Education Health and Discovery Education *streaming University*.
